

Cake smash.

What is a cake smash?

Fun portraits of your little ones.

A cake smash photo shoot is a great way to celebrate your toddlers birthday. Whether they are turning 1, 2, or 3 years old, celebrate their birthday in style.

Every cake smash photo shoot begins with portraits of your little one, so make sure you bring 1-2 outfits to create different looks.

During your cake smash your little one will get to have lots of fun and get messy. Not all toddlers like getting sticky fingers, so sometimes we use a wooden spoon or hide food within the cake so your toddler can find them.

my studio

- 3 simple packages to choose from

The studio

Located just outside of Boston

My studio is located just outside of Boston (PE220AY)
It's a home studio next to my house, and has a light, airy feel to it. The studio is a shoe free zone (feel free to wear socks / slippers to keep your feet warm!)
This is for hygiene reasons for our newborn guests.

The studio has a range of cake smash style rompers, number blocks, bunting & themed items.

My style is simple, organic and pure.

The session.

What's included

Your cake smash session will **include** use of my studio, props, and set up and a vanilla cake provided by a professional cake maker:

I will provide bunting, balloons, number blocks and other styling items which we will discuss in advance.

If you would like additional styling or a specialised theme let me know in advance so I can quote for any additional costs.

The session.

Get the most out of your booking

Your session will last 1-1.5 hours so please allow for this.

Please provide appropriate clothing based on the neutral styling of the studio and my current portfolio. I have headbands / fake flowers, some dresses and some rompers for girls, bow ties, and hats for boys.

Parents are invited to have photographs taken with their little one. Parents are asked to wear light coloured outfits for their portraits. A simple white vest, matched with a blouse and jeans tends to be most of my clients choice of clothing.

Please do not bring more than 1 person to the studio as it can be over whelming for children and space is limited.

A young girl with curly brown hair, wearing a peach-colored dress and a floral headband, is kneeling on a light-colored wooden floor. She is looking down at a round white wedding cake decorated with flowers and ferns. Her hands are touching the top of the cake. The background is a plain white wall.
