

A photograph of two young girls with long blonde hair standing in a field of tall grass and small white flowers. They are both wearing blue cardigans over white lace dresses. The girl on the left is holding a flower to her nose, and the girl on the right is looking down at a flower she is holding. The background is a soft-focus field of similar flowers, and the lighting is warm and golden, suggesting late afternoon or early morning. The text "Family Photography" is overlaid on the left side of the image.

Family Photography

Remember the moment

I specialise in family photography whether you need updated portraits of your children or a large group family photo shoot. I like to keep my photo shoot posing as natural as possible so often I will set up shots and get families to interact within the pose to create natural moments and beautiful connections.

While the majority of family photo sessions taken place outdoors I can offer studio sessions during the winter months, again my stripped back, natural styling is used to create something which is beautiful and real...

Studio sessions

Located just outside of Boston

My studio is located just outside of Boston (PE220AY)
It's a home studio next to my house, and has a light, airy feel to it. The studio is a shoe free zone (feel free to wear socks / slippers to keep your feet warm!) This is for hygiene reasons for our newborn clients.

My style is simple, organic and pure.

Outdoor Sessions.

Styling & Prep

Before your session its a good idea to **co-ordinate** with the studio what you wish to wear:

Recommended outdoor clothing

Keep colours in keeping with the season, no neons as they create colour cast on skin, combinations of shades creates a consistant look.

TOP TIP

Remember your session is outdoors so comfortable walking shoes, something to keep you warm & drinks for little ones is advised
